

MAGIC APPLE SCHOOL began over 33 years ago. As former PVUSD educators, we strongly support our local public schools and feel our unique program enhances the total educational experience of our students. At Magic Apple, we strongly emphasize social skill development--many of our projects involve working within a multi-aged group. Unique to Magic also, are our music and performance opportunities within our annual spring and winter shows. Our students grow to love singing and dancing through our music classes. We are also proud of our high interest classes—Science, Greek Myths, Animals, Heroes of History, Performance Arts (drama, dance and Music). During recesses students enjoy many choices as well: cooking, art, lawn games, working in our greenhouse, skits on our outdoor stage—all in a beautiful orchard setting--the perfect end to a busy school day!

MAGIC APPLE SCHOOL

CHARACTER EDUCATION

Each year, Magic Apple students are able to participate directly in special learning experiences designed to promote important core values-- leadership, responsibility, caring, fairness, and citizenship. All students are involved in student body elections, class meetings and service projects that benefit the local community and beyond. Many Magic Apple alumni often continue to hold leadership positions in middle school and high school with their strong speaking abilities, self - confidence in front of groups, and desire to improve their communities.
