We feel that this is an invaluable all school event that provides our candidates with a truly unique experience at all levels of the democratic process—from making campaign materials, developing ideas for offices, learning to speak confidently, devising important questions in screening potential officers, and voting, to learning the actual demands of being a politician once elected. Please remember also, that we work very hard to insure that this is a very positive experience for all students. To support your interested student please 1) help them to narrow down 3 offices that are appealing 2) assist with poster materials and ideas 3) listen to their speech and 4) celebrate once they are elected (all students are guaranteed a position). Magic Apple students are always tremendously supportive of each other and candidates speeches are always greeted with thunderous applause.
